Edgen Murray is a stocking distributor for reputable and quality valve and valve automation brands. With over 30 years of valve experience, we leverage our strategic supply relationships and technical knowledge to provide application specific solutions for our customers' MRO and project valve requirements. Through our global vendor network, we are able to source commodity grade valves, as well as engineered valves to support a wide variety of oil and gas applications.

OUR DEDICATED VALVE TEAM PROVIDES OUR CUSTOMERS WITH COMPLETE TURNKEY PROJECT MANAGEMENT SOLUTIONS, INCLUDING:

- Technical consultation and valve design
- Complete supply chain management
- Sourcing from preferred manufacturers
- Readily available stock in strategic global locations
- Product modifications including automation, custom coating, stem extensions and pups
- Documentation such as technical drawings, MTRs, and IOMs
- Tagging and preservation

FULL SERVICE VALVE AUTOMATION

Edgen Murray provides full automation packages built to customer specifications. Assembly can be performed at our automation facility, offsite, or in the field by our experienced service technicians.

We are proud to offer quality products and services that meet our customer's project-specific needs. Our valve automation team works closely with our customers and provides assistance in selecting the correct valve design and components to meet the necessary requirements. We support this in-house with highly skilled technicians who provide actuator sizing, CAD drawings, and schematics.

In addition, our service technicians are available to perform maintenance and assist with start-up and commissioning procedures as needed.
